1. Applicant's amendment was received on 2/15/06, and has been entered and made of record. Currently, **claims 1-7, 9, 14-16 and 21** are pending.

Allowable Subject Matter

3. The following is an examiner's statement of reasons for allowance:

Independent claims 1 and 14 define a document process system including a division/coupling process section for executing a division/coupling process with respect to the electronic document by referring to the information stored in a scan parameter storage means. Further, it includes *division/coupling set information storage means for storing set information regarding a document to be divided or coupled, wherein the set information includes excess document process information regarding a first process to be performed on an excess part of the electronic document after having divided by the division/coupling process means, wherein the first process is capable of being set different from a second process by which a non-excess part of the electronic document is operated upon.*

The features identified, in combination with other claim limitations, are neither suggested nor discussed by the prior art of record.

4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
